# DOMUM

*(Latin)**'homeward'**'to the home'**'bring home'.*

**As curators and custodians of the finest products for the home in the world, we don't believe in compromise.**

We believe in timeless design.

We believe in perfection. In the details. In the heritage and values of craftsmanship, purity and simplicity behind every brand and product we represent. Brands and products that have one thing in common - To stand above all for the never ending pursuit of excellence.

It's a philosophy we share. Offering nothing less than the best service in representing them and ensuring that when we bring them into our clients homes, they are treated with the same care, respect and passion that went into making them.

## bulthaup

**As an independent family business, for over 60 years bulthaup has combined the most advanced engineering skill with refined, minimalist aesthetics to create bespoke kitchens and living spaces for people to come together, connect, relax and feel at home.**

Every bulthaup product is created with a deep value for craftsmanship, design, superb quality, a love for authentic materials and a passion for detail. Values lived by every one of the men and women in the bulthaup factory in Aich, Germany, every day. Because we believe, bulthaup truly begins where machines can go no further.

*Tables & Benches*

*Accessories*

German design legend Otl Aicher firmly believed that intelligent minimization is the key to better products and greater simplicity.

Channelling this philosophy, bulthaup b1 focuses on the essentials – consciously using a select number of high-quality and 'honest' materials that are skilfully combined to create the perfect kitchen in every detail.

**Our company is built on a promise to embody the legacy of our brands. Brands that inspire us through their unwavering quest to produce beautiful, functional, timeless pieces of design and their commitment to uncompromising quality.**

*“It's personal. We are committed to our clients on an emotional level.”*

**Colin Lee**  
**Managing Director**

Born in Cape Town, Colin completed his B.Comm degree at UCT and qualified as a Chartered Accountant, working for Ernst & Young in Cape Town and then in the UK. In 2000, after 5 years as a senior finance manager for Canada Life Assurance Company in London, he embarked on an international operatic singing career, becoming only the third South African tenor in history to achieve the “Grand Slam” in opera - to have sung in all of the 5 major opera houses in the world. Now, after 20 years abroad, Colin has returned to South Africa to merge his financial and creative skills at Domum.

*“A space evokes an emotion. It is the sum of its parts. Our duty is to use design to make you feel something.”*

**Ramón Casadó**  
**Design Director**

Originally from Barcelona, Ramón has nearly 20 years' experience designing bulthaup kitchens. He'd be the first to tell you that his enthusiasm and passion for bulthaup has only grown over time. For him it's been very exciting in South Africa where he's been designing open, magnificent kitchens that are so in tune with the lifestyle. While design in London or Europe tends to be much more constrained by space, here there is the possibility to create absolutely spectacular kitchens on a scale not usually seen. Ramón has designed both bulthaup showrooms in Europe. Ramón is excited and inspired to now also bring Rimadesio, Dinesen and Carl Hansen and Søn's incredible products to his clients and to the African continent.

DOMUM

(Latin)

'homeward'

'to the home'

'bring home'.
